PRO SERIES LINEMARKERS

*The Ultimate in
Design and
Performance.*

Pro Series linemarker fitted with
bead hopper and standard one
gun unit.

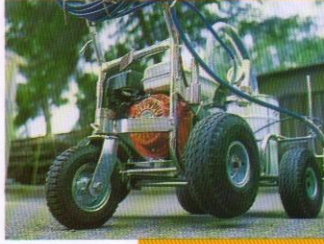

Pro Series linemarker with 2 gun assembly.

*The Pro Series is
surely the choice of
the professional.*

Height and width adjustments are simple and easy to operate. Easy to follow guide pointer is fully adjustable.

Rear wheels may be simply swiveled up for 3 wheel operation when marking curves or circles.

Unit operates on 4 wheels for stability and straight lines.

Unit comes equipped with **LX80** professional heavy-duty spray gun fitted with a self-cleaning, slip change, reversible tip and 15 metres of industrial quality conductive spray hose.

A kill switch is conveniently located on the operating handle to allow for immediate power cut-off.

Loosen wing bolt and remove gun to use as conventional spray unit for stencil work and general spray painting.

Large capacity remote filter reduces tip blockages with pressure gauge located for continuous monitoring operation.
